***Sled pull.***

Kennel or owner items kept and use with active working dogs (some especially questionable and frowned upon today – 2019- if you keeping and conditioning APBT working dogs) are not in the least as said to be – but if you own it ... or an been using it ... you will be "stamped and sealed" as an animal abuser and charged for cruelty to animals by "some" ... could make the "authorities" make you out to be a **dog fighter – and then you have to prove the opposite - I still love my APBT's.**

Let's take look and talk about **what is "thought" to be dog fighting paraphernalia and what precisely the items are** and then for what **precisely these items are used if you are a dogman and keep APBT –**

Then as aids in exercising and conditioning the APBT as working dog and why these "paraphernalia" used does not make you or anyone else a dog fighter.

Drag sled are used as weight pulling loaded sled.

The principle of the sled is designed not to hook on small obstacles in its path.

Dragging the sled is safe and effective and the dog cannot hurt himself dragging the sled.

The dragging / pulling the sled is also powered by the **DOG**.

The dog starts himself and can slow down and stop himself at any time, dog is enjoying himself.

Here are some videos on dogs using the drag / pull sledge:

**On grass.**
